

***CTEK POWER, INC. NORTH AMERICA  
RELOCATES TO NEW CHICAGO HEADQUARTERS***

[CTEK Power, Inc.](#) – the world’s leading automotive Battery Charger manufacturer – announced today the relocation of its North American headquarters to the Chicago area. The move will provide a new base of operations and better location for the company to achieve its strategic growth plans. The new offices are located at 5521 N. Cumberland Ave, Suite 1104, Chicago, IL 60656.

Andreas Naeslund, President of CTEK Americas, commented: “As we continue to develop our growth plans, the new offices give us an efficient working environment with increased capacity to accommodate the company’s North American expansion. We initially identified several locations and selected Chicago for its excellent access to national and international transportation hubs. Additionally, our location in a modern corporate center within the Greater Chicago area will enable us to attract and retain talented employees who will help to drive our business forward.”

CTEK also announced the appointment of Erica Hungerford in the role of Office Manager. In her new role at CTEK, Hungerford will be an integral part of the daily operations for strategic clients in North and South American markets.

“Erica brings a fresh energy and strategic focus to CTEK. Her experience and expertise will be an integral part of CTEK’s expansion in the US-market and advancing our industry-leading customer service. We are proud to have her as part of the team,” said Bobbie DuMelle, Executive Vice President, CTEK Americas.

Relocating to the Chicago metro area also allows CTEK to be strategically located near distributors, suppliers and new vendors.

“CTEK’S new strategic plan for North America is solidified with their move to Chicago. We are very confident that Bobbie DuMelle, Erica Hungerford and their Chicago staff will strengthen CTEK’s position in the market,” commented Jason Mitchell, President of Distribution Fulfillment Services – a leading automotive distribution company working with CTEK.

Len Kraus from CTEK vendor Positive Packaging said: “Having CTEK a short distance away will significantly increase our collaborative output as CTEK continues to grow its North American presence.”

CTEK’s relocation to the Cumberland Metro Park, located near Chicago’s O’Hare Airport and within reach of many hotels, means it will allow expedited travel and accommodations for CTEK’s global network of customers and employees as well as staff from the Swedish parent company. It also places them in one of the main geographic centers for the automotive industry.

## **ABOUT CTEK**

CTEK SWEDEN AB develops and manufactures battery chargers and maintainers for all types of lead-acid and lithium batteries for both private and professional use.
